## Rerides and Protests

The key words in this rule are option, mandatory, and same direction.

\*Remember -- Where the boat speed is slower than allowable on any pass, a re-ride is mandatory; where faster, a re-ride is at the contestant's option.

What to do -- If the timer records a slow speed, thus a mandatory re-ride. Hold up a red flag to indicate mandatory re-ride, turn the boat around and pull the contestant through the un-scored portion of the run, and pull the contestant again in the same original direction. The slow pass that caused the mandatory re-ride is not scored. A fall during the un-scored run to return the contestant to the original direction ends that contestants run.

What to do -- If the timer records a fast speed, thus an optional re-ride. Immediately following such a pass and before entering the slalom course for the next pass, the boat shall be stopped and the kneeboarder shall be notified he may repeat the pass.

What to do -- If more than one pass in any run is disallowed due to incorrect speed the kneeboarder shall have the option of requesting a five minute rest before continuing. The next contestant in order skis and the re-ride shall be taken at the conclusion of the kneeboarders run during which the five minute rest period expires.

Request for re-rides may be initiated by a judge for the event before the next contestant starts or may be initiated as soon as possible by the contestant. In either case, the re-ride shall be decided upon before any further contestants start. If, in the opinion of the judges for the event, the request was not initiated as soon as possible after the contestant skied, the request shall be denied.
